

CIMCYC International Doctoral Summer School: Representations in Cognitive Neuroscience

22/04/2024

Applications are open for the CIMCYC International
Doctoral Summer School: Representations in
Cognitive Neuroscience!

This summer school is a five-day dive into computational and cognitive neuroscience, focusing on the concept of representations. It is designed for doctoral candidates and early career postdocs interested in or already working on the concept of representation from either psychology, neuroscience, philosophy, computer science, or biology.

The program aims at promoting an enriching interdisciplinary academic exchange in a supportive setting, encouraging theoretical questions and analytical tools. Participants will enroll into peer-projects with the help of our Faculty members which offers a unique opportunity for collaborative learning as well as for networking.

Important dates:

- Application deadline: June 3, 2024.
- Notification to the selected candidates: June 17, 2024.
- Posters - abstract submissions: July 1, 2024.
