SUMMER SCHOLARSHIPS AT THE CIMCYC

21/05/2023

We offer TEN 4-week scholarships to undergraduate students from national and international universities to visit research group participate in their

Each scholarship w living expenses in r of Granada.

Through the “Talent Recruitment Program” of the University of Granada, **undergraduate students** from national or international universities are offered the opportunity to participate in research projects and activities, led by researchers of the CIMCYC, during **the whole month of July 2023**. The program will improve the scientific knowledge of the student, while at the same time providing an important intercultural experience, which will be essential for their academic and personal development.

In the enclosed pdf you have more information regarding the different CIMCYC groups offering openings and their lines of research! If you have questions, please get in touch with the contact researchers or with CIMCYC support personnel at @email.

The program will take place over four weeks (July 2023). The application submission period will be open from the 18th to the **31st of May, 2023** (11:59 p.m.), with results published in June 2023.

To apply, please visit https://investigacion.ugr.es/plan-propio/solicitud/programa26

During the application, the candidate should choose the group they wish to join and upload the following documentation:

- Personal data: email address or contact telephone number for communications.

- Detailed personal academic certification showing the undergraduate qualifications obtained and the date they were obtained, or a copy of the academic record.

- Enrollment receipt for the current 2022/2023 academic year, stating the enrolled credits.

- CV detailing the skills and knowledge related to the collaboration to which he participates.

- Motivation letter written in English, detailing the student's motivation to carry out the collaboration to which he participates.

In the case of applying to join more than one offer of collaboration, the groups should be prioritized.

If you have questions, please get in touch with CIMCYC support personnel at @email or with the contact researchers of the research line you wish to apply.
